A real passion for collecting and playing.

We at CLAAS are proud of our loving attention to detail and the innovative technology our agricultural vehicles showcase so magnificently. These tried and tested stalwarts of the field prove their worth day in and day out, all over the world, turning happy users into devoted fans.

Our passion for precision is stunningly reflected in our model world. Whether it's collector's items destined to be displayed behind glass or true-to-detail toys and powerful pedal tractors providing endless hours of fun, our big and small fans can look forward to enjoying that genuine CLAAS feeling in the comfort of their own homes.

We showcase these exciting items to you on the following pages. Allow yourself to be inspired, discover your favorite items, and be kind and generous to yourself, or others.

Toys

Made with love for others to play with.

Welcome to the CLAAS miniature world! Look forward to the coming harvest with a JAGUAR roving around your living room and the TERRA TRAC getting the work done in the sandbox. Made in meticulous detail, our toys all have one thing in common, they absolutely convey that genuine CLAAS feeling!

Harvest helpers.

Our pedal tractors are guaranteed to fulfill a real dream of our small CLAAS fans: having an own tractor for inside and outside the house. Deciding for themselves what's to be done first and then really getting going.

Given their high quality, durable technology, and their many functions, we have managed to generate that genuine CLAAS feeling even without the use of a diesel engines.

Our AXION 960 is a particular highlight. Page 15 provides a graphic depiction revealing all the wonderful details about this fantastic pedal tractor.

We wish you lots of fun discovering our products!

Collectors' Models

“Must have it.”

So here they are: our latest collector's models for passionate collectors and fans of state-of-the-art agricultural machinery technology.

On the following pages you're sure to find several highlights which still might find a place in your glass cabinet. We took great efforts to bring out the best of some of these using dioramas. This presents their lovingly crafted details in an even better light.

The big in miniature –
our diorama motif motifs.

Our passion for lovingly crafted details is the very basis of our modeling world. Colors, dimensions, and functionality – every detail is as wonderfully close to the original as possible.

The same meticulousness also guides us in showcasing our motifs in diorama style, as you may find inspiring in this season's catalogue. Working together with the diorama expert Thomas Müller (www.muellermaenner.de) and his team, we spent three days on photography and managed to perfectly recreate reality in miniature. For every motif, an exact concept was developed in advance and the model set was then extensively adapted and supplemented. To create the perfect setting, it took around two hours per photo session – followed by extensive

picture processing, where sky and other fine details were added and optimized.

We not only truly enjoyed the whole process but are also exceedingly proud of the deceptively real results. In addition to viewing these fantastic photos, you may also be interested in watching our stop-motion videos, where your favorites can be seen in action.

We very much hope to have inspired you with our diorama worlds. We ourselves are big fans and already very keen on working with our models again at the next photo sessions.

Our warmest thanks again to Thomas Müller and the entire team.

Not suitable for children under 3 years of age – risk of choking.

2+
